RELEVANT WORK EXPERIENCE.

Formant, San Francisco, California.

2023 – present.

➤ **Technical Writer (remote).**

- Reducing customer onboarding time by up to 50% by producing 100+ pages of product documentation comprising configuration, common tasks, FAQs, and troubleshooting, with minimal guidance from developers.
- Writing UI text, tool tips, and release notes for complex new features on very short deadlines. Improving documentation, UX, accessibility, and company knowledge around existing features.
- Created and populated a knowledge base using a repository of past customer support cases and ChatGPT.

National Instruments (NI), Austin, Texas.

2016 – 2020, 2021 – 2023.

➤ **Staff Content Curator (remote).**

- Deflected upwards of 50% of incoming customer support cases by maintaining a high-quality online content portfolio of over 5,000 public-facing articles for NI engineering test products.
- Defined and executed high-impact documentation initiatives by analyzing site traffic data, customer feedback, and SEO performance.
- Worked with product teams to prioritize and generate documentation for new products and features.
- Advocated and evangelized documentation best practices across departments, products, and topics to create a consistent, reliable, and superb customer experience.

➤ **KCS Program Manager (remote).**

- Trained, onboarded, and directly managed a team of 30+ knowledge workers to practice Knowledge-Centered Service (KCS)—a content-focused support workflow—within a global technical support team, from entry-level agents to worldwide department leadership.
- Set KPIs. Tracked and coached program performance through data analysis and 1x1 and group meetings.
- Championed department-wide adoption of KCS in 2017. Was recognized as a leader and a technical expert in documentation best practices and content management systems.
